Overture, dim the lights!

Three years ago, I met Andrew Nelson, co-founder of the International Association of Theater for Autism, my mentor and dear friend, who has been the inspiration behind the formation of FacePlace.

No more rehearsing and learning our part.

We know every part by heart.

It seemed the perfect fit for our community given the *starring roles* of the Grant County Special Education Cooperative, Carey Services and the Community School for the Arts. We are blessed to have this wonderful program in our community.

This is it, you'll hit the heights, and oh what heights we'll hit..

The success of FacePlace and Jr. FacePlace is the result of the hard work, talent, skill and dedication of so many wonderful individuals. I extend my heartfelt thanks for your continued support.

On with the show, this is it!
