Join Researchers Trying to Make A Difference In a Child's World

Our researchers are currently accepting participants for a study of an investigational medicine in children with Autistic Disorder.

This is a 14-week research study of children and adolescents who have been diagnosed with or have symptoms of autism.

To be eligible for this study, participants must:

- Be between the ages of 5 and 17 years
- Have a diagnosis of Autistic Disorder or think your child may be autistic
- Not have any other significant medical conditions (e.g. heart disease, high blood pressure, lung disease, liver or kidney failure, unstable seizure disorder, thyroid disease)
