

# Autism Speaks Grants Program

## Applicant Guidebook

Since 2013, the Autism Speaks Local Impact Grant Program has awarded over \$3 million to 536 organizations across the country and served tens of thousands of people with autism, their caregivers and families, teachers, therapists and neurotypical peers. We are pleased to have a single application process for Autism Speaks Local Impact Grants and Norma and Malcolm Baker Recreation Programs. Reviewers will consider your application for both programs depending on meeting the program criteria.

The Autism Speaks Local Impact Grant Program accepts applications from non-profit, 501(c)3 organizations for grant awards up to \$5,000. The Norma and Malcolm Baker Recreation Program grants may be awarded to both non-profit and for-profit organizations up to \$5,000.

The objective of the Autism Speaks Local Impact Grants is three-fold:

- to promote local services that enhance the lives of those affected by autism spectrum disorders
- to expand the capacity to effectively serve the ASD community
- to increase the field of national service providers

Autism Speaks places a significant emphasis on the product or deliverable of each proposal to benefit the autism community beyond those participating in the program. Deliverables include videos, manuals and curricula that may be shared on the Autism Speaks website for the broader community. In addition, Autism Speaks seeks to ensure proposals provide opportunities for individuals with varying levels of need. Careful consideration will also be given to applications that specifically address the needs of underserved communities - which can include rural towns, non-English speaking populations, and other vulnerable groups.

Beginning in early January, we will accept applications for programs to be funded in April. All information on the process can be found here:
